Supplemental Labeling

FOR USE AS A VOID TREATMENT TO CONTROL PESTS INSIDE BUILDINGS, STRUCTURES, AND MODES OF TRANSPORT

EPA Reg. No. 2724-804

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read the label affixed to the container for **Zoëcon[®] Zenprox[®] EC** before using.

Important

Use of **Zoëcon[®] Zenprox[®] EC** according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for **Zoëcon[®] Zenprox[®] EC**.

For Use as a Void Treatment to Control Pests Inside Buildings, Structures, and Modes of Transport:

General Directions: **Zoëcon[®] Zenprox[®] EC** provides effective kill of fleas, cockroaches and other listed pests and can be applied as a void treatment using a low pressure sprayer, void injector or other equipment (see Specific Directions) in homes, attics and crawlspaces, apartment buildings, hotels, schools, day cares, nursing homes, hospitals, office buildings, correctional facilities, commercial and industrial buildings, warehouses, non-food/non-feed handling establishments, modes of transportation, institutions.

Apply to areas where target pests hide, such as baseboards, corners, storage areas, closets, around water pipes, doors and windows, attics and eaves, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers and similar areas. Pay particular attention to cracks and crevices.

Remove pets and birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried. Do not apply to toys or stuffed animals or related articles. Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly, or infirm. Do not apply to classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

MIXING DIRECTIONS:

Zoëcon[®] Zenprox[®] EC mixes easily with water (diluent) and may be applied with most application equipment such as Micro-Injector[®] or Actisol[™] applicators. For best results, partially fill sprayer with water (diluent), add the labeled amount of **Zoëcon[®] Zenprox[®] EC** and fill to the required amount of water (diluent). Diluted spray mixture may be stored overnight and used the following day, but mixture should be agitated well prior to use.

Zoëcon[®] Zenprox[®] EC in labeled dilutions is generally non-staining and should not stain surfaces that cannot be spotted or damaged by water alone, however in questionable or sensitive surfaces, apply a small amount of dilution in an inconspicuous location to evaluate. Do not apply where electrical short circuits might result. Do not enter or allow others to enter until spray has dried. Do not apply product in a way that will contact workers, other persons, or animals, either directly or through drift.

TANK-MIXING

Zoëcon® Zenprox® EC can be mixed with EPA-registered insect growth regulators in areas where these products are registered to be applied. Please check product-specific label directions before using and the more stringent label directions will apply.

Use as a void treatment to control pests inside buildings, structures, and modes of transport. This includes homes, attics and crawlspaces, apartment buildings, hotels, schools, day cares, nursing homes, hospitals, office buildings, correctional facilities, commercial and industrial buildings, warehouses, non-food/non-feed handling establishments, rail cars, marine vessels, and institutions. Mixes easily with water (diluent) and may be applied with a low pressure sprayer for broadcast and spot treatments. A void injector or other application equipment that delivers low volume treatments, such as Micro-Injector® or Actisol™ applicators may be used to make void and crack and crevice treatments.

Treatment	Specific Directions	Use Rate	Pests
Void	Treat entry points such as around water pipes, doors, windows, and eaves. Treat areas where pests normally feed or hide such as baseboards, corners, around water pipes, cracks and crevices. Treat void areas with sufficient material to cover the void surfaces. Spot treat floor rugs, beneath furniture, in closets, and storage areas.	0.25% Etofenprox 2 fl oz/gallon of water (diluent)/1000 ft ²	Ants, Bed bugs, Carpet beetles, Cockroaches, Confused flour beetles, Centipedes, Crickets, Darkling beetles, Dermestids, Earwigs, Firebrats, Flies, Fleas, Fruit flies, Gnats, Indian meal moths, Lesser grain borers, Millipedes, Mosquitoes, Moths, Pillbugs, Red flour beetles, Saw-toothed grain beetles, Scorpions, Silverfish, Sowbugs, Spiders (Brown recluse, Black widow, others), Stink bugs, Ticks, Wasps
Void for Bed Bugs Infesting Bedrooms and Sleeping Areas	Spot treat baseboards, behind pictures/wall hangings, rugs, and other articles in the bedroom or sleeping area.	0.25% Etofenprox 2 fl oz/gallon of water (diluent)/1000 ft ²	Bed bugs

Repeat treatments to infested areas as necessary, but not less than 14 days after the initial treatment.

For information or in case of emergency, contact 1-800-248-7763.

This labeling must be in the possession of the user at the time of application.

This supplemental label expires on June 30, 2018 and must not be used or distributed after this date.
